

24 HOUR TELEPHONE INTERPRETING - CHECKLIST

Our 24 Hour Telephone Interpreting Service will ensure that language is not a barrier and will enable you to understand what's being said, clearly express yourself through an interpreter, and negotiate confidently in a global market.

We refer you to our terms and conditions of business; ask us if you need a copy.

How does it work?

When you call to request a telephone interpreter, you will be put through within around 60 seconds, so we do recommend that you plan the call, and you have as much information to hand as possible.

We advise that you consider the following points in preparation for your call:

- If it is an international call, is there a time difference? Ideally, make sure they are expecting your call.
- Which language(s) are required?
- Do you want to brief the interpreter first, and then add the third person? Or have a three-way call from the start?
- Allow plenty of time for the interpreter to translate your questions and the person's responses.
- Make sure you have a clear idea of what you need to achieve from the call (sometimes it helps to have a written reminder).
- Try to avoid humour or jokes as these can be hard to convey in translation, and particularly by telephone.
- Plan your time carefully. Conversing through an interpreter makes conversations twice as long. Compensate for this by either cutting down your presentation or speaking in shorter, sharper sentences.
- Do not rush. Interpreting is a taxing job and is mentally exhausting. To alleviate the pressure as much as possible, speak slowly and clearly.
