Let us introduce ourselves

Here at Atlas, we offer professional bespoke language services to our clients, including written translation, spoken interpreting, voiceover production and more. Using carefully selected professionals, we have over 5,000 suppliers based across the globe, covering a variety of specialisms and a staggering 340+ languages.

We are proud to hold up-to-date certification for two standards at the heart of Atlas' uncompromising dedication to quality: the BS EN ISO 9001:2015 for quality management and the BS EN 15038:2006 for translation services.

Our focus is on people. Talking, communicating, and understanding each other, in our experience, is key to yielding the best results. Atlas realises that language services should not be founded on a 'one size fits all' strategy, and therefore each project is tailored differently according to the client and their specific requirements.

In line with our strict quality procedures, we only work with suppliers demonstrating proven expertise in their field. Each client has a dedicated project manager who makes sure that the project runs smoothly, to time and with the desired result.

What our clients are saying

“

FUTURE AGRICULTURES

Atlas provided another high-quality French translation of one of our policy briefs. They responded quickly to our needs and delivered a document that we were confident to send straight through to printing and distribution. We're happy to include Atlas as one of our trusted partners.

NHS CONFEDERATION

Atlas provided us with a high-quality, professional, courteous and competitively priced service, with a minimum of fuss. I was pleased with their communications and would not hesitate to use them again in the future.

THE LANDMARK TRUST

Would you pass on to the translator of the history album my admiration for their clear and elegant translation, which was even delivered a day before the deadline? We spend a great deal of time on Landmark's style and tone of writing and it seems to me (half way through checking it back against the original document) that the translator has done really well in matching it. It's a pleasure to read.

SISTEMAS COGNITIVOS

The translator did an impeccable job. The translation notes were not only helpful but showed a tremendous dedication to the task and outstanding professionalism all around. A very special thank you to ATLAS.
